

PRESS RELEASE

Tullett Prebon Information Teams with Infront and Interactive Data's ComStock to Target Nordic Markets

Leading market data provider extends its reach into Central Europe's retail and institutional community

London – 9th of January 2005 – Tullett Prebon Information, a leading provider of real-time money markets, interest rate derivatives and fixed income price information from the inter-dealer market, announced today that it has formed an alliance with Infront, a specialist market data technology supplier to the Nordic countries, and ComStock Europe, part of Interactive Data (NYSE: IDC) and a leading provider of real-time global market data, to provide users in the Scandinavian region with greater access to Tullett Prebon Information data products.

Through this multi-year agreement, which is an extension of Tullett Prebon Information's existing relationship with ComStock, Infront's broad audience of institutional and retail investors will have access to a range of composite pages from Tullett's leading market data products SwapMarker, MoneyMarker and TreasuryMarker via Infront's market data screens. The information will be displayed on The Online Trader™, Infront's widely used terminal product.

Commenting Darren Bishop, Head of Europe and Asia, Tullett Prebon Information, said, "The partnership with Infront has been fuelled by the growth in OTC trading in the Scandinavian markets and a demand by market professionals for access to real-time independent OTC data. We expect to see significant take up of the data in the region particularly in areas such as Norway and Sweden".

Joachim Rosli, Head of Sales & Business Development, Infront, said, "When we asked our customers how we could improve our services they told us that what they needed was more money market and fixed income information. With this in mind we looked for a partner who could provide the most accurate quality data available and Tullett Prebon Information met our requirements perfectly. We look forward to a long and fruitful relationship."

David Hann, ComStock's General Manager, Europe, Middle East and Africa, said, "We have been a distributor of Tullett Prebon Information data for over four years. This alliance is a natural
