

Peresys/Infront Exclusive Partnership Broadens Market Data Options in Southern Africa

Johannesburg, South Africa - Peresys, the technology solutions provider to the financial markets have partnered with Infront and secured the exclusive distribution rights of The Online Trader – a financial information terminal with a combination of worldwide real-time prices, analysis and financial news - under the Peresys branded name See More Markets.

According to the partner agreement, Peresys will offer See More Markets to their wide base of professional customers on the buy side, and their sell side customers will also be able to offer the solution to their clients.

“The recently established relationship with Infront enables us to offer the South African investment community an exciting, fairly priced alternative market data front end, rich in global content and functionality”, says Peresys CEO Ashley Mendelowitz.

Peresys will leverage their JSE data vendor status to stream real-time prices from South African exchanges into See More Markets - making both local equity and international markets with seamless integration of news, estimates and fundamental data very accessible.

“Peresys is widely recognized as the leading technology solutions provider to financial markets in South Africa so it means a lot to become an important part of their strategy,” said Kristian Nesbak, CEO, of Infront “By combining their market presence and local data with our technology, we can offer a compelling alternative - they are the ideal partner to support our plans for growth in EMEA”

See More Markets will be unveiled in Southern Africa at the Hedge Funds World Africa 2009 conference held at the Cape Town International Convention Centre.

More about Peresys

Peresys is a technology solutions provider to the financial markets, specialising in the delivery of FIX (Financial Information eXchange) Protocol-enabled applications and services to the ‘buy side’ and the ‘sell side’, spanning the entire trade cycle and listed asset classes. As part of its core purpose to build and grow connected trading communities, Peresys has pioneered the introduction and growth of the electronic order routing of financial instruments, both in South Africa and across Africa. Peresys’ head office is in Bryanston, South Africa, with a significant branch presence in Cape Town.

More About Infront

Infront provides financial information and trading solutions for financial players in Europe.

Leading sell-side and buy-side players use The Online Trader for electronic trading on European and North American exchanges. Infront’s customers rapidly deploy solutions for their clients and for in-house use because of its integration flexibility, Internet based data distribution and straightforward user administration system. Infront is the strongest player in the Nordic market and rapidly expanding its presence in EMEA. For more information visit www.infront.no
